The Representatives of the Democratic party in the State of Nevada, on other questions, most heartily enand pledge their earnest support to Alton B. Parker and Henry G. Davis, the National Standard bearers of the law applicable to all public works.

FIRM FOR BIMETALLISM.

We adhere to our oft stated positton upon the money question and we rejoice to know that the National Democratic Convention refused to place itself on record as favoring the gold standard, and defeated the proposition to do so by a vote of more than two to one in the committee on platform and resolutions.

We affirm that upon all the incidental and collateral questions involved in the silver issue, the friends of Nevada's interests are almost to a man in the Democratic party,

It is the Republican party that is pressing the "Fowler Bill" providing that no silver shall be purchased for subsidary coinage, but that standar! dollars shall be melted down for that purpose. It is a Republican president Mexico and China upon a gold basis. NATIONAL DEMOCRACY AND IRRIGATION.

We call attention to the pledge of the National Democracy, that it will stay with us and fight the battle through on lines which will preserve our undeveloped resources for the highest good of the masses. It has kept its promises in the past and it will keep its promises in the future, as indicated in the following plank of the St. Louis platform:

"We congratulate our western citizens upon the pasage of the law known as the Newlands Irrigation Act for the irrigation and reclamation of the arid lands of the Westa measure framed by a Democrat, passed in the Senate by a non-partisian vote and passed in the House against the opposition of almost all the Republicans leaders by a vote, the majority of which was Democratic.

We call attention to this great Democratic measure, broad and comphreasive as it is, working automatically throughout all time, without further action of Congress, until the reclamation is accomplished, reserving the lands reclaimed for home seekers in small tracts and rigidly guarding against land monopoly, as an evidence of the policy of domestic development contemplated by the Democratparty, should it be placed in power."

ROOSHVELT AND IRRIGATION. We deny as false the Republican

claim that President Roosevelt was the main factor in the enactment of te National Irrigation Law. We us not deny that President Roosevelt we affirm that long years before he ever gave public utterance upon the subject Senator Newlands was devoting his time, energy and financial resourses to the work. That under his leadership in the House of Representatives a campaign of education sential features of the irrigation old as finally passed were framed by him and received the approval of Western Senators and Representatives and of President and the bill was and is known as the Newland's Irrigation its opponents, and we believe it unstatesmanship.

STATEHOOD FOR TERRITORIES. We aagin demand the immediate admission os seperate states of Okalahema, Indian Territory, New Mexico and Arizona and condemn the narrow Eastern partisanship of the Reuublican Party in denying them such admission.

STATE GOVERNMENT.

We congratulate the people of Nevada upon the impartial and able administration of Governor John Sparks and upon the faithful and efficient performance of the duty of every Fusion State officer. We recommend the work of the last legislature, composed almost entirely of Democrais and Silver Party men. We especially endorse the State Irrigation Law passed by the Fusion Legislature and advised, urged and signed by Governor Sparks.

LABOR.

We recognize the right of laboring men to organize into unions for their own protection and we earnestly object to an unjust limitation of that right whether by injunction or other-

Supreme Court of this State. We also favor a national eight-hou:

We are opposed to the alorming growth om militarism and to the interference and settlement of civil disputes by the military forces unde the present Republican administration We demand that all military authorities be subordinate to civil law.

For the protection of the life and limb of emplayees we favor the pasage of a bill by the Legislature of the State of Nevada defining who are fellow servants in the occupations of mining, railroading and all other extra hazardous occupations.

We favor the pasage of the laws providing for the inspection of mines and mining machinery, to insure the safety of miners. We favor a law providing for arbitration for the settlement of labor difficulties.

NO IMPERIALISM.

We fever and especially emphasize who is urging the policy of placing that plank in the St. Louis platform which declares that all men under vote for the enemy. the American flag are entitled to the protection of the institutions whose emblem the flag is, even if they are inherently unfit to be members of the American body politic. Wherever No. X .- Serate Comment Resolution, there may exist a people incapable of being governed by American laws under the American Constitution, the territory or people ought not to be a part of the American domain. We insist that we ought to do for the Filipinos what we have already done for the Cubans, and it is our duty to make that promise now and upon suitable guarantees of protection to citizens of our own and other countries resident there at the time of our withdrawal, set the Filipino people upon their feet free and independent to work out their destiny.

PANAMA CANAL TREATY.

We favor the building of the Pan- any county hereafter created, shall be ama Canal but most strongly condema the methods adopted by President Roosevelt in obtaining the right of the hands of the Governor five days way for the Canal. We charge him after having been placed in his hands in this particular with a violation of during the Twenty-first Session of the the sacred principles upon which our country was founded, with inciting, it is therefore passed this 10th day of and supporting rebellion in Colombia, a sister Republic, for the purpose of unlawfully acquiring possession of a portion of its territory.

ELECTION OF SENATORS. We renew our demands for the elect ion of United States Senators by di-

rect vote of the people. TRUSTS.

We are unalterably opposed to a!I trusts and combinations formed for recomended National Irrigation, but the purpose of restraining trade, fixing prices and monopolizing business. We demand the strict enforcement of the laws relative thereto and we further demand that such trusts and of the State shall be vested in the tariff protection so far as it may be necessary to effectually curb them sions of such Legislature shall be held was conducted which shaped the way and prevent them from charging unfor National Irrigation; that the ea. reasonable prices to the American con-
